# BALE FEEDERS & BEDDERS

## ARE YOU LOOKING TO INCREASE YOUR PROFITS?

Every winter, a significant amount of hard-earned cash is lost through inefficient stock feeding and straw bedding, wasting valuable fodder. **WESSEX** round bale and straw spreaders are easy to use, simple to maintain, and are proven to save up to 20% on your annual feed costs.

## KEY FEATURES & BENEFITS OF WESSEX BALE FEEDERS & BEDDERS

- ✓ **FEED OR BED ROUND BALES** – Save up to 20% on feed bills through reducing wastage of feed.
- ✓ **SAVE TIME AND MANUAL LABOUR** – Reduce time and remove the back-aching work of manually feeding.
- ✓ **FITS TO LOADERS & TRACTORS** – Very versatile to suit your current machinery. Comes standard with 3 point linkage. Optional Loader Brackets available.
- ✓ **NO ELECTRONICS** – Simple to use and maintain.
- ✓ **USE ON SMALLER LOADERS** – Designed specifically to mount on smaller loaders for agile yard work.
- ✓ **DETACHABLE LOADING HEADSTOCK WITH QUICKLATCH™ SYSTEM** – Fast and easy reloading without needing to unplug hydraulics.
- ✓ **HDPE (HIGH-DENSITY POLYETHYLENE) FEEDER FLOOR** – Tough material with zero corrosion minimising material leakage. Ideal for use in all weather conditions.
- ✓ **STRONG BED CHAIN** – 5500kg load rated roller chains designed to handle the toughest of conditions.
- ✓ **STRONG CHAIN BARS** – Suitable for use with heavy silage bales.
- ✓ **LOW MAINTENANCE** – 2 - 6 grease points depending on model!
- ✓ **HIGH STRENGTH BOLT ON BALE SPIKES** – Great for use with tight bales.
- ✓ **OPTIONAL OFFSET TRACTOR LINKAGE** – Drop the feed outside the width of the tractor making it easier to feed close to walls or into troughs.
- ✓ **OPTIONAL OFFSET LOADER BRACKETS** – Drop the feed outside the width of the loader meaning you won't drive over the feed. This also makes it easier to feed into troughs.

## **BFX-180** ROUND BALE FEEDER

- ✓ **FEED ROUND BALES** OF SILAGE, HAY, HAYLAGE, OR LOSE CHOPPED MATERIAL.

Designed to meet demand, the simple to use, low maintenance **BFX-180** is a robust bale feeder loaded with the same features and benefits of the **BFR-180 G2**.

It is Ideal for livestock farmers who require a machine to feed out silage, hay, haylage or chopped material from either side with ease. Reduce time and manual labour with this versatile machine, and save up to 20% on feed bills through reducing wastage of feed.

## **BFR-180 G2** ROUND BALE FEEDER

- ✓ **FEED ROUND BALES** OF SILAGE, HAY, HAYLAGE, OR LOSE CHOPPED MATERIAL.

The **BFR-180 G2** is a DualEntry round bale feeder, where you can latch and feed from either side, which is useful for tight passageways and where you cannot turn the loader or tractor around.

Aggressive, multi-directional chain spikes ensure tightly compacted bales are unrolled with ease. The **BFR-180 G2** can add the Crossfire bedder to make a complete feeding and bedding system.

### **UNIQUE TO BFR-180 G2**

- ✓ **DUAL ENTRY BFR** - Load & latch from either side
- ✓ **MORE AGGRESSIVE, MULTI-DIRECTIONAL CHAIN SPIKES** - Ensures tightly compacted bales are unrolled with ease
- ✓ **HEAVY DUTY BUILD STRENGTH**
- ✓ **FITS TO LOADERS & TRACTORS** - Suits many applications
- ✓ **NO ELECTRONICS** - Simple to use and maintain
- ✓ **DETACHABLE LOADING HEADSTOCK**
- ✓ **WITH QUIKLATCH™ SYSTEM** - Fast and easy reloading

**DUALENTRY LOADING SYSTEM** - LOAD AND LATCH FROM EITHER SIDE

### **3 STAGE LATCHING SYSTEM**

#### **1. SPIKE**

- ✓ LIFT LATCH
- ✓ DISENGAGE HEADSTOCK
- ✓ SPIKE BALE

#### **2. LOAD**

- ✓ PLACE BALE OVER CRADLE
- ✓ REMOVE WRAP
- ✓ LOWER BALE ONTO CRADLE

#### **3. FEED**

- ✓ LOCATE TINE CUPS
- ✓ ENGAGE HEADSTOCK
- ✓ HYDRAULIC DRIVE & SAFETY
- ✓ CATCH AUTO ENGAGES
- ✓ LIFT AND COMPLETE

## FEED & BED WITH THE SAME MACHINE!

- ✓ **WITH THE CROSSFIRE BEDDER YOU CAN BED STRAW FROM ONE SIDE AND FEED SILAGE FROM THE OTHER.**
- ✓ **UTILISE 1 MACHINE FOR 2 JOBS!**

The **WESSEX CROSSFIRE G2** straw spreader is unlike conventional straw choppers as it spreads the straw in its baled length, with minimal dust and projectiles, and up to six to ten meters - for round bales only.

Straw choppers are renowned for creating excessive dust, which can seriously threaten the livestock's health in an enclosed environment. Chopping bedding straw also reduces its effective life span within the bedding area.

**FEED AND BED WITH 1 MACHINE**

## UNIQUE TO **CROSSFIRE G2**

- ✓ **MORE AGGRESSIVE, MULTI-DIRECTIONAL CHAIN SPIKES** - Ensures tightly compacted bales are unrolled with ease
- ✓ **SPREADS WITHOUT CHOPPING** - Minimal dust and projectiles
- ✓ **MAINTAIN THE FULL LENGTH OF STRAW** - Straw lasts longer and creates a better bed surface.
- ✓ **UTILISE 1 MACHINE FOR 2 OPERATIONS** - Bed from one side and feed from the other. Save time and money
- ✓ **BED UP TO 6-10M** - Great bedding distribution
- ✓ **FITS TO LOADERS & TRACTORS** - Suits many applications
- ✓ **NO ELECTRONICS** - Simple to use and maintain
- ✓ **DETACHABLE LOADING HEADSTOCK**
- ✓ **WITH QUIKLATCH™ SYSTEM** - Fast and easy reloading
- ✓ **HPS (HYDRAULIC PRIORITY SYSTEM)** - Automatic hydraulic system to prevents bale blockages
- ✓ **SPIRAL ROTOR** - Designed to handle a variety of materials
- ✓ **SPRUNG LOADED DOOR** - Allows more volume through and ensures less bale leakage.
